OUTDOOR KITCHENS

An outdoor kitchen offers homeowners a luxurious and functional extension of their indoor space, enhancing their lifestyle and increasing their home's appeal. With high-end grills, cooking stations, refrigerators, and seating areas, outdoor kitchens create an inviting space for entertainment and family gatherings. Some reports say that outdoor kitchens can increase your home's ROI by up to 120%!

FIRE + WATER

Does your outdoor space display mastery of the elements?

Bringing two forces together, fire and water!
These stunning features can be added to any patio or existing water feature!

Products & photos produced by: Aquascape Inc.

FIRE FEATURES

Fire pits and fireplaces provide warmth, ambiance, and a focal point for outdoor gatherings. Modern designs include sleek gas fire pits, fire tables, and custom-built fireplaces.

XERISCAPING

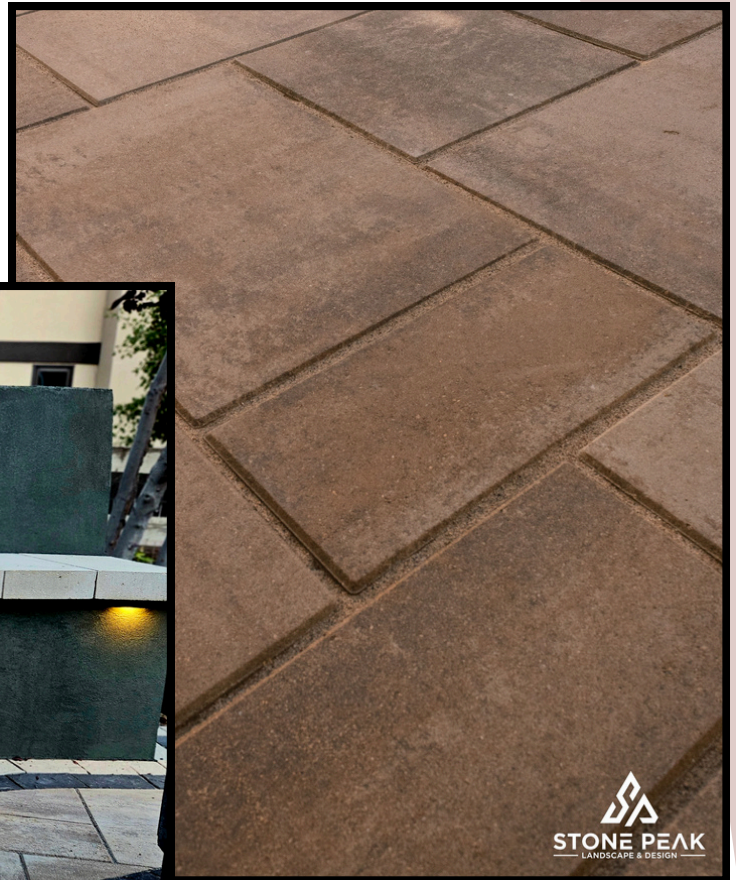

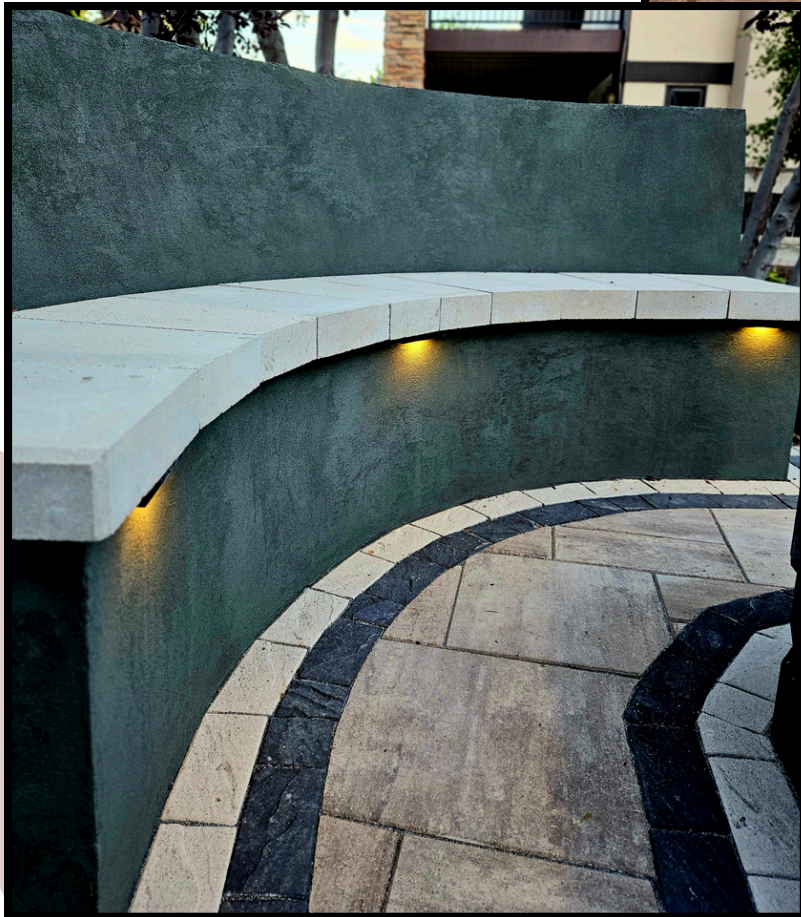

One of the primary benefits of xeriscaping is its ability to conserve water. The other is bring more color and vibrancy into the space. By using beautiful, drought-tolerant plants and implementing water-efficient irrigation methods such as drip irrigation or rainwater harvesting, homeowners can significantly reduce their water consumption cost compared to traditional landscaping.

HARDSCAPING

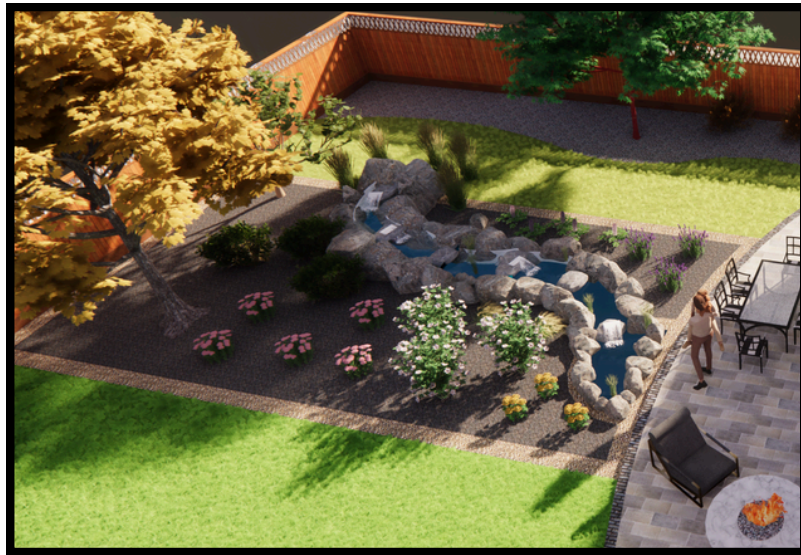

Although it is not a widely used term, Hardscaping describes the use of masonry materials such as Concrete Pavers, Retaining Walls, and Natural Stone, to create patios and other functional outdoor spaces.

Creative possibilities are endless! Well-chosen hardscapes also add visual value by defining functional areas, improving landscape design flow, and enhancing property appeal.

POND-SIDE RETREATS

Water features and koi ponds add visual interest and beauty to outdoor spaces, creating a serene and tranquil atmosphere. The sight and sound of flowing water, coupled with the vibrant colors and graceful movements of koi fish, create a captivating focal point that enhances the overall aesthetics of the landscape.

SMART OUTDOOR TECHNOLOGY

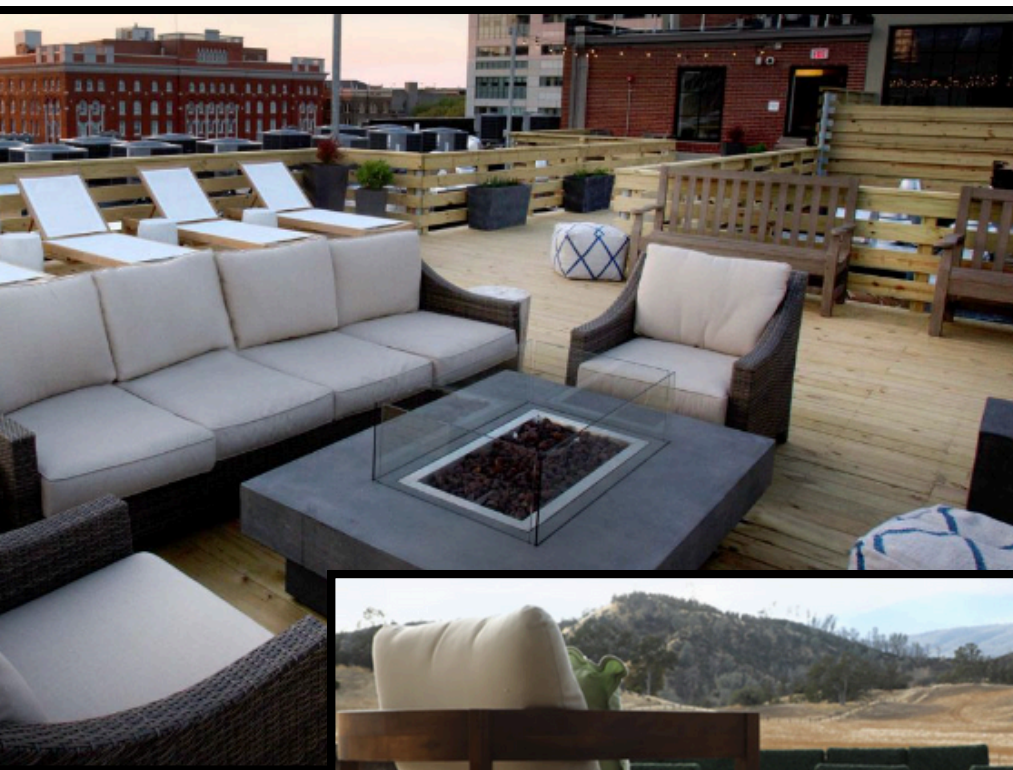

Smart outdoor technology allows homeowners to control and automate various aspects of their outdoor environment, such as lighting, irrigation, and entertainment systems, from their smartphones or tablets. This level of convenience enables homeowners to adjust settings, schedule tasks, and monitor activity remotely, saving time and effort.

ADAPTABLE FURNITURE

Adaptable furniture is designed to be versatile and flexible to your lifestyle, allowing it to adapt to different needs, spaces, and occasions.

Whether it's modular seating, convertible tables, or adjustable shelving units, adaptable furniture can be rearranged, reconfigured, or transformed to accommodate changing requirements and preferences.

FAQ

How long will my outdoor project take to complete?

-Project timelines vary based on design complexity, material availability, and seasonal factors. At Stone Peak, we create a detailed project schedule to keep you informed and work to complete each project as efficiently as possible while maintaining quality.

What kind of ROI can I expect from a luxury outdoor renovation?

-Luxurious outdoor spaces can significantly increase property value, especially when designed with intent in mind. According to some reports, it can increase ROI by 120%!

Do I need permits for my outdoor project, and will Stone Peak handle them?

- Yes, certain elements of your project may require permits, depending on the scope and location. Stone Peak manages all permitting needs to ensure compliance with local regulations, saving you time and hassle.
